Dear Friends,

Welcome to the 12th International Congress on Glaucoma Surgery.

On 18-20 April 2024 the Congress will convene in Abu Dhabi at beautiful Hilton Hotel on YAS Island for three days of intense and rewarding sessions. As usual there will be didactic sessions, interactive sessions, grand rounds, videos, wet labs and executive round ups.

Our program continues to evolve to maximise the experience for you making the conference engaging, worthwhile and fun.

The best of glaucoma surgery and surgeons will be present providing clear and unambiguous insights into the place, techniques, problems and solutions of the ever expanding range of glaucoma surgeries.

The Emirati Society of ophthalmology will be our wonderful hosts and we are very much looking forward to sharing time with them, enjoying their beautiful country and their legendary hospitality.

We so look forward to seeing you all there.

With the warmest regards,

Tarek Shaarawy, ISGS President

About Abu Dhabi

Abu Dhabi is the largest of seven emirates and the capital of the United Arab Emirates. Made up of 200 islands, the emirate has a diversity of landscapes ranging from coastal islands filled with world-famous attractions and beaches to an uninterrupted desert scenery. Home to a large concentration of attractions and cultural sites, Abu Dhabi is popular amongst tourists worldwide. Highlights include Sheikh Zayed Grand Mosque, Yas Island, the oasis city of Al Ain and so much more, from amusement parks to delicious foods, and from high-tech museums to crazy attractions.

Abu Dhabi means “land of the gazelle” in Arabic, It is thought that this name came about because of the abundance of gazelles in the area and a folk tale. The city’s economy is supported largely by natural resources. However, it is making efforts to diversify its economy by growing its non-oil knowledge-based sectors, such as tourism.

GENERAL INFORMATION

Photography and Video Material

Pictures and videos taken at the 12th International Congress on Glaucoma Surgery (ICGS) could be reproduced in ISGS news or promotional material, whether in print, electronic or other media, including social media and the ISGS website. ISGS reserves the right to crop, splice, treat and edit any imagery or photographs taken at the ICGS events. The participant waives the right to inspect or approve the finished product, including written or electronic copy. Naturally, participants always have the right for their picture to be removed. Should you wish to have your picture or video removed, please let us know and we will take action accordingly.

Barcode / QR code scanning

Participants could be asked by staff from industries at exhibit booths and sponsored symposia to provide their personal contact data through barcode/QR code scanning. In this way, information about name, surname, country, and e-mail address will be sent to industries on an individual, voluntary basis. These data will be processed for the purposes indicated in the Disclosure Privacy Policy Reference 1, letter e), indicated in the subscription form. Please do not allow scanning of your badge by industry representatives without your direct, free and specific consent.

Insurance / Liability

ISGS cannot be held liable for any personal injuries or for the loss or damage to property incurred by participants or guests during the congress, including those participating in tours and/or in social events. Participants and guests are encouraged to take out insurance to cover losses incurred in the event of cancellation, medical expenses or damages to or loss of personal effects when traveling outside of their own Country. ISGS cannot be held liable for any hindrance or disruptions of the Meeting arising from natural, political, social or economic events or other unforeseen incidents beyond its control. Registration of a participant implies acceptance of this condition.

SCIENTIFIC INFORMATION

Official Language

The official language of the 12th International Congress on Glaucoma Surgery is English. All participants are encouraged to join discussions, independently of their fluency in English as the exchange of ideas and critical evaluation of presentations is the main purpose of the event.

Slide Center

All meeting rooms are equipped with a computer slide projector alone, and no traditional slide or overhead projectors for transparencies are available. It will be not possible to use personal laptops in the meeting rooms. Speakers are kindly requested to use “PowerPoint” (Windows or Macintosh/Apple) for their presentations. The dimensions of PowerPoint presentation should not exceed 300 MB, videos included. Please use “.gif” and “.jpg” extensions for images. Other types of extensions will be accepted provided they can be recognized by PowerPoint. The use of CD-Rom, pens or memory stick is advisable to ease downloading of presentations, and same should be handed to technicians at the Slide Center in good time. Please remember to collect your CD or memory pen from the Slide Center at the end of the session. Only computer projection is available in the Meetings rooms and it is not possible to directly use personal laptops at the podium. The Slide Center follows the same schedule of Registration Desk (see page 6).

Abstract Book

ICGS abstracts will be available to the participants on the Congress website www.icgscongress.org

E-Posters

The abstracts accepted as e-posters will be available to the participants on e-posters kiosks. Attendance at least one break is recommended.

Video Loop

Delegates will have the opportunity to enjoy videos on innovative and educational topics regarding glaucoma surgery.

Wi-Fi Internet Connection

The Wi-Fi is free in the building.

Network: Hilton honors - Access code to navigate: AUH

Educational Partner Symposia and Lecture

Educational Partner Symposia and Lecture will be held on 18, 19 and 20 April in Auditorium and will allow Sponsors to present their latest innovations, offering delegates the chance to exchange ideas with colleagues while acknowledged leaders in the field of glaucoma surgery discuss their specialist subject.

The schedule of Educational Partner Symposia can be found on pages 46-49.

At AbbVie, we set our sights on a future where vision lasts a lifetime.

With a legacy of 75 years in eye care, we're proud to offer 125 eye care products that help to preserve and protect vision for patients around the world. It's not just what we do - it's who we are. We treat conditions from the front to the back of the eye, including glaucoma, ocular surface disease, refractive errors and retinal diseases. We focus on clinically relevant science to make a meaningful difference for patients. We advance innovation and seek to elevate the standard of care.
